Applicant's arguments filed March 8, 2004, with respect to claims 1-29 have been fully considered and are persuasive. The rejection of claims 1-22 has been withdrawn.

Allowable Subject Matter

Claims 1-29 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 17, and 21 have been amended to include a limitation where a distal end of the discharge electrode section is exposed to air such that electrons are emitted into air. Newly submitted independent claim 29 has been presented which contains at least this limitation.

After further search and consideration, the prior art of record has not been found to teach or suggest the inventions recited in the independent claims. Applicant's arguments regarding the application of the prior art of Fujisawa in the previous Office action are found to be persuasive. Claims 1, 17, 21, and 29 are therefore allowable over the prior art. Claims 2-16, 18-20, and 22-29 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2881

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Examiner has further provided a list of US Patent documents considered relevant to electron and negative ion generation in light of the instant application on the form PTO-892.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A Vanore whose telephone number is (571) 272-2483. The examiner can normally be reached on M-F 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John R. Lee can be reached on (571) 272-2477. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
